Global Distribution Systems Fares & Ticketing Course—SABRE

Explore and interpret Global Distribution Systems Fares (GDS) by using mileage system pricing.

**Format:** Internet or eBook  
**Prerequisites:** Learners must already be familiar with GDS system functionality, basic commands, and have the ability to interpret booked itineraries.

**What you will learn:**  
Upon completing this course, you will be able to:  
- Analyze GDS displays relevant to mileage system pricing  
- Identify and price different journey types  
- Read, interpret, and apply fare rules  
- Check minimum-fare rules in pricing itineraries  
- Use GDS to issue tickets for manually-priced reservations

**Key topics:**  
- Introduction to mileage based air fares, analysing itineraries and retrieving fares from a GDS  
- Pricing one-way and circle trip practice exercises  
- Limitations on indirect travel, side trips and surface sectors  
- Backhauls, circle trips, journeys in different classes of service and alternative fare break points  
- Lowest combinations, round-the-world journeys and minimum checks

**Who should study?**  
- Airline fares desk agents  
- Travel agents  
- Airline ticket agents  
- Call centre agents

**Additional Information:**  
This is a distance learning course, delivered online through a web-based program. 100 hours of study are provided although an average of 50 hours of course study should be expected.

The course is supported by a downloadable and printable Workbook with exercises, a list of GDS commands, maps and definitions of key journey pricing principles.

**Course Fee**  
$385.00 USD
